Let us help you!

You don't have to do it all by yourself. Here at Whole Foods Market Bellingham, we have a staff of trained professionals that can assist you with all of your entertaining needs.

Good to Know

We generally suggest 1 pound of food per person with 1/3 – 1/2 pound protein for the main dish and the remainder distributed evenly between the side dishes.

Keep It Simple! Build your meal around the main course. While it is nice to have interesting food, it may not be best to mix too many complex dishes. You don't want too many conflicting flavors. If you're not sure, just ask. Our catering specialists can assist you with planning your menu.

Something for Everyone

Remember to keep your guests in mind when planning your menu. While it is difficult to meet everyone's individual needs, it is easy to provide a simple dish for those on restricted diets.

Don't forget the flowers

Flowers always add that finishing touch that brings the table to life. Our expert floral staff is happy to help you make the perfect selection. For that extra touch of ambience, add some of our pillar or taper candles.
